MERRY CHRISTMAS.

To everyone who settles his old subscription account or makes a new one between now and Christmas, we will give as a premium the *Continental* magazine, a handsomely illustrated journal published monthly. This applies to both daily and weekly, but not to club rates.

A RETURN CARGO.

Nothing could probably arouse more thoroughly the Chinese officials at Canton to a realizing sense of the perfidy of their course, than the return to their hands of a large batch of their fraudulent merchants and students. The San Francisco *Bulletin* says that it would be an admonition to them, in the only way that they can comprehend, that the faith of treaties will have to be observed. Chung will only cease to issue false and fraudulent certificates when no one applies for them, under the conviction that, when untrue, they cannot open the doors for admission. It will also be a lesson to the transportation companies by which they will be likely to profit. Conveying coolies across the Pacific, maintaining them for weeks, and then taking them back, is a business not likely to produce large dividends. There appears to be no help for it, however. The Chinamen, if rejected, must be taken back or the fine provided in each case will have to be paid. It is true opportunities may be furnished at the last moment to permit them to be smuggled ashore. But if any operation of that kind is resorted to, there will be a good deal more about it than now seems probable. The corporation engaged in this business belongs to New York, and may not care what is done. But the people of California will probably be able to find means to protect themselves.

GERMAN TAXATION.

The proposed bill for taxation of incomes, referred to in the royal speech at the opening of the Prussian Diet applies only to incomes from personal property. Members of the Chamber of Deputies received the speech coldly. They complain the passage dealing with bills on taxation is not clear. Liberal newspapers criticise the speech adversely, saying it does not satisfy public curiosity concerning real taxation, that the programme is generally colorless and insignificant, and the proposed bill taxing interest accruing from capital, will not obtain a majority of the Lower House of the Diet, especially while landed property remains exempt from import.

EDITORIAL NOTES.

In pursuance to resolutions adopted at the last annual meeting of the Grand Army of the Republic, Capt. W. Shockey, chairman, has sent circulars to all points in Kansas, Missouri, Arkansas, Nebraska, Colorado, New Mexico, and Indian Territory, asking signatures of all comrades to a memorial to Congress praying for the establishment of a soldiers and sailors home in Kansas. Speedy action is asked so that the memorial can be presented to Congress early this coming session.

The Milwaukee *Sentinel* publishes a talented statement of the loss of life and property in the series of gales from November 11th to 17th, showing a loss of 55 lives and 60 vessels. Only 11 of the latter representing about 6,000 tons and value over \$300,000, have been released. Twenty-six, representing 9,000 tons and value of \$100,000 are a total loss.

People are getting careless again. Quite a number of stovepipes are sticking out of pitch-pine roofs, and when cold weather comes, any day may set a fire going. Folks who build little additions and advertise rooms to rent, should put in chimneys. The officers should enforce the law in this respect.

The Two Stranglers.

SAN FRANCISCO, November 21. The Supreme Court has affirmed the judgment of the lower Courts in the case of Wheeler, the strangler of Adella J. Tilson, his sister-in-law, who was sentenced to be hanged on Saturday next. Wheeler will be brought before Judge Ferrell, and for the third time since the murder, the sentence of death will be passed upon him.

To-morrow was the day for the execution of the other strangler, Wright Leroy, but as he has filed a notice of appeal, the execution has been stayed. A Young Girl Commits Suicide.

Miss Annie Miller, a young woman 17 years old, lately from Norway, who was found in a room at the Eureka Hotel, Oakland, suffering from asphyxiation died last night. It was at first supposed to be the result of an accident, not turning off the gas, but now it is believed to be deliberate suicide.

A Tivoli actor named Geo. Sterns, appears to be mixed up in the matter.

Looking Into the China Question.

Congressman Gunther and Denster of Wisconsin leave here this afternoon for home. During their visit they are understood to have paid considerable attention to the Chinese question, both having voted for the Restriction Act. Mr. Denster, who is a Democrat, on being interviewed by an Associated Press reporter on the speakership fight declined to commit himself, and declared, in a joking way, that he, like Tully of California, wanted to be on the winning side. He, however, spoke of Carlisle very kindly.

The Score.

Score of the walking match up to noon; O'Leary, 225; Hart, 248; Harriman, 228; McIntyre, 253.

The Sharon-Hill Case.

The hearing of the motion of Colonel Flourney, in the case of Miss Hill, asking that the Grand Jury be reinstated by the Court, came up before Judge Toothy this morning. Mr. Sharon was present with his attorneys, General Barnes and D. J. Murphy, while Miss Hill was represented by Colonel Flourney, Judge Tyler and Major McKerny. After hearing the arguments, Judge Toothy declined to give the Grand Jury any further instructions.

FOREIGN DISPATCHES.

PRESS DISPATCHES TO THE GAZETTE.

Perished at Sea.

LONDON, November 21. The American ship Thomas Dana, from Liverpool for New York, landed at Fayal on the 8th inst., with 21 men belonging to the French brig Vologberg, from St. Pierre Miquelon for San Malo; she was sunk by a collision October 30th. The remainder of the crew and passengers, 88 in number, perished.

No News for a Week.

PARIS, November 21. Owing to cable interruption information of military operations at Tonquin are not expected for a week. The fleet will make naval demonstrations on the Chinese coast during the attack on Bacninh.

Moody & Sankey.

LONDON, November 21. Moody & Sankey began at Wandsworth yesterday the second fortnight of their mission. They held two services, and 8,000 people attended each.

A Military Company's Bad Luck.

PRESCOTT, A. T., November 21. A fire broke out in Armory Hall at 7 o'clock this morning, and before assistance reached the place, had gained such headway that it was impossible to save anything. The building was used for an armory by the Prescott Rifles, 12 of whom had purchased it for \$3,000 and had paid \$1,650. The building, 30 stands of arms, and 6,000 cartridges, are a total loss. Insured for \$600. Supposed to be the work of an incendiary.

EASTERN DISPATCHES.

PRESS DISPATCHES TO THE GAZETTE.

A Steamer Lost With All on Board.

HANCOCK, Mich., November 21. It is feared that the steamer Maniste, plying between this place and Duluth, has sunk with her crew and 25 passengers on board. She left Bayfield at midnight on the 15th inst. for Ortonago on her way to this port, and has not been heard from since. The steamers Duluth and China left Bayfield one hour and a half after the Maniste for the same point, but did not see her yesterday. A tug was sent to find the Maniste, and returned today bringing a bucket and a mast of the Maniste, and a portion of the pilot house. The boat being old and heavily loaded, and the sea very rough, it is feared she has founded. Two tugs have been cruising for her for the last three days. A telegram was received this morning stating that one of the tugs had found a part of her cabin which was washed ashore some distance above Ortonago.

The Eastern Troubles.

WASHINGTON, November 21. The Chinese Minister, in behalf of his government, delivered a letter to Secretary Frelinghuysen, relative to Anam. The following extract gives the spirit of the communication: "If France desires to maintain friendly relations with China, why should we

not discuss the matter amicably? If she insists upon invading the northern part of Anam, where our troops are stationed, it indicates that she is determined to break the friendly tie, and her troops there cannot remain with folded arms, but must meet them in the field. We, therefore, send this communication to all foreign powers, showing that the cause of the rupture does not come from China."

A Soldiers' and Sailors' Home.

Ft. Scott, Kansas, November 21. In pursuance of a resolution adopted by the last annual meeting of the Grand Army of the Republic, Capt. W. Shockey, chairman of committee appointed for the purpose, has sent circulars to all posts of the G. A. R. in Kansas, Missouri, Arkansas, Nebraska, Colorado, New Mexico, and Indian Territory, asking the signatures of all comrades to send a memorial to Congress, praying for the establishment of a Soldiers' and Sailors' Home in Kansas. Speedy action is asked so that the memorial may be presented to Congress early the coming session.

Flooded Mines.

MILWAUKEE, November 21.

The striking miners at Iron Mountain, Mich., although confronted by 80 special deputies from Chicago and Milwaukee, induced eight engineers and pump miners to leave their posts. Within one day the mines will be completely flooded. The strikers have been informed they will be paid to date and discharged for the Winter.

A Crooked Preacher.

CHICAGO, November 21. — J. F. Oakum, a Baptist minister at Grand Chais, Illinois, has been placed in jail at Mound City for concocting a scheme to swindle insurance companies by representing that his accomplice was drowned in the Ohio river.

The Application will be Denied.

WASHINGTON, November 21. Secretary Teller will refuse the application of the Southern Pacific R. R. Company to the Texas Pacific land grant, and will refer the whole matter to Congress. The President concurs in this course.

JOTTINGS.

Ten men in the county jail. Six bars of Bodie bullion went west this morning.

C. S. Martin has something to say in another column.

New music books at Nasby's. Thermometer at 7, 9, 11, 1 and 3, 40, 46, 47, 48.

Two big teams loaded for Susanville, and one for Bidwell, at D. W. Earl's this morning.

There is a large quantity of barb wire fencing at the depot for Surprise valley farmers.

The doctors are complaining. They say a prescription has not been written for two weeks.

Two cars loaded with material for R. L. Fulton's house came down from Virginia this morning.

H. W. Roberts shipped his flock of 2,000 graded Angora goats to California to-day to be wintered.

The bridge on Second street, just above West, is in a bad condition and needs immediate attention.

Senator P. N. Marker went to his ranch at Lovelock this morning. He will be absent until Thanksgiving.

More freight is being unloaded here by the Central Pacific than in any corresponding month heretofore.

The Reno Guard have finished their new target, and constructed a nice shooting house back of the Lake House.

Truckee meadow farmers are sending considerable hay to the mountains. Two car loads were shipped this morning.

Harrison & Hash started a flock of 3,000 Angora goats down the river this morning. They are to be wintered in the vicinity of Clarks Station.

John Sunderland has just received a large lot of ladies' boots and slippers. Call and see them. Gentlemen can find an elegant stock of hats to select from.

Deputy Sheriff McInnis was surprised last night by a party of gentlemen and ladies calling at the Sheriff's office and demanding cards and tables. They wanted to play whist.

The ladies of the W. T. C. U. will have a dinner at their rooms on Thanksgiving, for the purpose of paying off the indebtedness of the Reading Rooms. They ask contributions and patronage.

An Indian came in from Pyramid this morning with 600 pounds of trout weighing all the way from two to 15 pounds each, which he returned from his wagon at from two to three bits apiece. He sold his load in a very short time.

PERSONALS.

Henry Berry is convalescing. Mrs. J. S. Shoemaker is reported quite unwell.

Mrs. General Clarke has gone to San Francisco.

D. H. Haskell came up from the city this morning.

Mrs. Governor Kinkead went east this morning.

G. C. Kelly one of Susanville's attorneys went home this morning.

W. S. Raines and wife of Loyton are in town visiting Reno friends.

Mrs. James T. Davis came down from the Mound House to-day to visit Reno friends.

M. A. Ruiter, one of Stockton's prominent business men, is spending a few days in Reno.

W. F. Berry made his appearance on the streets this morning for the first time in over a week.

Lew Stoner, from Garfield district, passed through Reno on his way home yesterday. He is a successful miner.

G. W. Grayson, cattle man, and, as Chamberlain says, one of God's noblemen, made his appearance in Reno this morning, after an absence of several weeks.

John Hinch has just arrived in Reno from Long Valley. He suggests that had he remained much longer in that neighborhood it would have taken two hunters to supply him with provisions.

Dr. Chamberlain, a capitalist from Toronto, Canada, came up from California this morning and went to Virginia, to take a look at the mines. He is well pleased with what he has seen this side of the Rockies, and intends buying a place in Southern California, where he can go and spend the winter months, thereby escaping the cold weather of Canada.

Hank Rhodes Passes.

Hank Rhodes has been adjudged insane and sent to the asylum. Years ago Hank was cashier and bookkeeper for Church & Hawley, when Truckee was the liveliest town between Sacramento and Ogden, at a salary of \$250 per month, and his future was bright and promising. He was possessed of a liberal education, and his business experience gave him a standing that any young man might well have been proud. When the railroad reached this point, Rhodes came here and was employed as a bookkeeper, a calling which he followed as long as he was able to work. He is of a genial, happy disposition, and always thoughtful of the comfort of others, and it seems a shame to see so noble-hearted a man deprived of his reasoning faculties.

THE COMING CAMP

Pyramid Mine Getting Ready to Make More Dollars.

PROGRESS TOWARDS BULLION PRODUCTION

All Old-Timers Coming Back and Doing Assessment Work.

Within a short time the Pyramid Company's mine will be rolling out ore that will pay well for either shipping, or for building works here or at the mine. A GAZETTE reporter visited the scene of operations yesterday, and found Superintendent Kinkead just finishing an incline, which will throw rock into the cars. He expected to be through timbering to-day and will then have a double compartment in the upraise, each of which will be three feet by four. The west one will be for the men and the other for ore. At the point in the tunnel where the upraise begins, a large station will be made and the track swung out under the ore, so there will be no handling after it is shovelled into the chute. The ore is most of it grainy, and runs out like quicksand wherever a hole is made in the wall. The ore goes just about \$200 a ton in copper and silver besides sulphur. The papers reported that it went about \$400 the other day, but it had not been assayed then. It is considerably like the ore at Spencerville near Smartsville, California, except that it contains silver, and is much richer in copper. There they work their ore by a very cheap process, making the sulphur serve as a fuel. The rock is piled in huge heaps with a layer of pine wood for a foundation. The wood is set on fire and ignites the sulphur, which burns for months, the smoke killing every spear of vegetation for half a mile around. After the fire goes out, the rock is leached. This process will not answer for the Pyramid ore, on account of the silver. Still

IT CAN BE WORKED

For \$25 or \$30 a ton if suitable works are erected, which Mr. Kinkead thinks will not cost over \$10,000 to build. The freight to Denver is \$40 a ton, so that a very few carloads would buy the furnace and build the works. There is a lot of low grade sulphuret of copper ore in the vein which can be crushed and concentrated. It may not please the owners, but it is better for Reno, and the whole country for that matter, to have good rich ore rebellious than pure. If it costs there is in it to get it out it will leave a lot of money in the way of labor in the country; whereas, if it was easily worked, it could be carted off to the bank. The works at the old shaft were fired up yesterday and the tanks set to work baling water out of the mine so as to prevent a flood through the tunnel. It will take about three or four days to clean it out. Alvaro Evans with his surveying apparatus went out to Pyramid yesterday to make a map of the mine, and the upraise will be pushed ahead to an opening. It is hard work to do anything in the stiff blue clay in which it is running; for it will neither drill nor pick. They are using a kind of large auger now, which bores into it very fast and makes a hole for blasting. When the connection is made they will be relieved of the necessity of blowing air to the men. They look for a big upward draft. The drills will not be used any more unless the tunnel is run through the back ledge. This ledge can be reached very handily after the 400 level is open. It is thought to be a rich body of copper, and if it proves so it will no doubt be worked by extending the tunnel through to it. It is about 70 feet now from the end of the upraise to the old works, and it will take a couple of weeks to port how it stands the winter.

A Happy Combination.

Last summer W. R. Chamberlain sent out to have a certain piece of land located, but did not choose a name, so the man named it "Happy Bill." Now the Happy Bill and Doan claims are about to be consolidated. The name will probably be "Happy Bill Doan."

A Flourishing School.

It is reported that Ed. Cummings and Dowling will run a foot race next Sunday for \$250. A forfeit of \$100 has been put up, and the sporting fraternity are on the tunnel level, and now lies across it for 100 feet. If it has 70 feet yet to run in a diagonal line along the mine, it will show that the fine ore is nearly 200 feet in that direction, for it extends some ways into the old

The Big Suit.

W. S. Hobart thinks the Holmes Northern Belle suit will be ended this week. The testimony is nearly all in.

It is reported that Ed. Cummings and Dowling will run a foot race next Sunday for \$250. A forfeit of \$100 has been put up, and the sporting fraternity are on the tunnel level, and now lies across it for 100 feet. If it has 70 feet yet to run in a diagonal line along the mine, it will show that the fine ore is nearly 200 feet in that direction, for it extends some ways into the old

incline. It seems that this showing ought to satisfy every one that Pyramid has a future. Where the Doan ledge is crossed there are three streaks that would be followed for two miles if they were on the Comstock, and there is little doubt but that they lead to ore bodies of greater or less extent and richness. The tunnel has been made wider and higher from the point where it started this summer. Before much work is done the light strap rail and wooden stringers will be replaced by good T rails, which will make the work of moving the cars much easier. (A car-load of ore weighs about a ton.) The big sheet-iron, 12-inch air pipe lies on the right of the track now, but it will not be needed when the connection is made, for the air will be pure. On the other side is the two inch pipe which runs the drills. Near the end an ingenious trap was put in to catch every drop of water, for what got to the drills interfered with their working. When air is released from pressure it creates cold in the act of expansion, and when there was any moisture in the exhaust from the drill cylinder it formed icicles a foot long in the hottest weather. About half an inch of water runs out of the tunnel, and it is pure and cold—much purer than that which comes down the canyon. Nine hundred feet from the mouth a fine little spring gushes out from the wall, and the boys have rigged a spout and provided a can to drink out of.

Concert and Social.

The ladies have set inviting tables at the Congregational Church and are prepared to furnish an excellent meal from 5 to 7:30 P.M. Go and help them, as they are at work for the benefit of the children. A House Burned.

Mr. Tofie, a Plute brave, had made his home on a rock opposite the mill at Pyramid, and yesterday went off to hunt the rabbit. His mahala got a visiting fit on and went to town leaving a stray cinder in the ashes, which ignited the cotton walls of the mansion and it was soon all ablaze. Several good dried rabbits, a sack of pine nuts, a rifle and a saddle went to smoke together with blankets, old coats, etc. When the family gathered together for prayers last evening Mrs. Tofie had several black and blue places produced by a good wild club wielded by the manly arm of her protector and defender.

A Card.

William Plummer tendered his best thanks to his numerous friends, and the public generally, for the very liberal support accorded him in the past, and he regretted that he had again engaged a co-partner with R. E. Queen, at the old stand, and respectfully invited a continuance of their patronage.

New Grass.

Some time ago Hon. W. H. Mills sent home Bermuda grass roots to Beowawe to Mr. Benson, who is giving them a thorough trial in several kinds of soil. The plant is so hardy and vigorous in all mild climates that Mr. Mills thought it might grow in dry places in the state where nothing else will. Mr. Benson planted some of it on fine soil and some on alkali beds, where nothing grows. The alkali bed is dead, but in the good soil it did well. Mr. Benson is going to repeat how it stands the winter.

District Court.

Jacob McKissick has filed a petition in the Norton case, asking the executor and executrix to show cause why the estate should not be settled up.

William Thompson

William Thompson has commenced a suit against the Reno Savings Bank and G. W. Huffaker, to compel the payment of \$1,400 Huffaker's unpaid subscription to the capital stock of the bank.

In the Case of the County of Washoe vs. the Reno Savings Bank

A judgment of \$2,022 has been rendered. The court, upon application, made an order making the county a plaintiff in the suit against the bank and M. C. Lake, and declared that judgment in the case of the County vs. Reno Savings Bank be allowed to prorate and participate with the judgment in the case of Thompson vs. Lake.

A Happy Combination.

Last summer W. R. Chamberlain sent out to have a certain piece of land located, but did not choose a name, so the man named it "Happy Bill." Now the Happy Bill and Doan claims are about to be consolidated. The name will probably be "Happy Bill Doan."

A Flourishing School.

It is reported that Ed. Cummings and Dowling will run a foot race next Sunday for \$250. A forfeit of \$100 has been put up, and the sporting fraternity are on the tunnel level, and now lies across it for 100 feet. If it has 70 feet yet to run in a diagonal line along the mine, it will show that the fine ore is nearly 200 feet in that direction, for it extends some ways into the old

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 24th St., New York, May 16, 1882.

MESSRS. J. C. AYER & CO., Gentlemen:

Last winter I was troubled with most unusual and distressing trouble, affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely sleep at night. Over and over again I suffered from a severe asthma and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of Ayer's Sarsaparilla, I took it in many other ways, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first time, and the skin, the fever, and the itching were allayed, and all signs of irritation of the skin disappeared. My asthma and cough were also relieved by the same means, and my system became greatly improved; it is now excellent, and a hundred per cent stronger, and I attribute these results to the use of the Sarsaparilla, which I recommend with all confidence. It has been a medicine over twelve years. I took it in small doses three times a day, and used, in all, less than two bottles. Please these facts at your service, hoping their publication may do good.

Yours respectfully,

Z. P. WILDS."

The above instance is but one of many constantly coming to our notice, which prove the perfect adaptability of Ayer's Sarsaparilla to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cures, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility, and all disorders resulting from poor or corrupted blood and a low state of the system.

THE CENTURY PROGRAMME FOR 1883-84.

THE PROGRAMME FOR THE FOURTEENTH year of this magazine, and the third under the new name, is of anything more interesting or popular than ever. With a few exceptions THE CENTURY shows a decided gain in circulation. The new volume begins with November, and, when possible, subscriptions should begin with that, and continue throughout the year. A New Novel by George W. Cable, author of "Old Creole Days," etc., entitled "Dr. Sevier," a story of the Orleans life, will be the first offering. Following will be some of the leading contributions:

A new "Astrology," untechnical articles, by Professor S. P. Langley, describing the most interesting of recent discoveries in the sun and stars. Three Stories by W. H. Boyce, author of "Gunner," etc. A vivid and sparkling story.

A New Era in American Architecture, a series of papers descriptive of the great buildings of the country, in Public Buildings, City and County Houses, etc. To be profusely illustrated.

A Novlette by Richard Grant, author of "Confessions of a Frivolous Girl," another of his stories.

And scores of other distinguished writers: the best artists in the country illustrate the magazine. It has been truly said that the reading of ST. NICHOLAS is
